## 2007 Sauvignon Blanc

The grapes used in the production of this wine come solely from our vineyard in Kelseyville, Lake County north of the Napa Valley. For quite sometime, Lake County has been touted by knowledgeable people in the wine industry as one of the premier growing areas for Sauvignon Blanc grapes in the country and Kelseyville is considered an outstanding section of the county for the production of Sauvignon Blanc.

### Winemaker tasting notes:

The 2007 Sauvignon Blanc is stainless steel fermented. The wine is dry with Meyer lemon flavor, almost tropical with crisp apple, good acidity and gorgeous fruit. The finish is long and absolutely delicious!

•

### Food suggestions:

Seafood, chicken, veal and pork
